

Naturism charter

We are committed to offering you an ethical, peaceful, and respectful environment, conducive to the practice of healthy, family-oriented naturism in harmony with nature.

We will welcome you with kindness and respect for your personal journey.

We commit and guarantee the practice of authentic, ethical, and safe naturism.

Respectful and caring naturism

Encouraging healthy, family-oriented, and natural naturism, based on the values of simplicity, freedom, and mutual respect. Foster a climate of tolerance and respect for differences, regardless of age, appearance, origin, or background.

Ensure respect for nudity as a natural expression of the naturist lifestyle, while being attentive to specific situations (particularly teenagers and beginners).

Support those discovering naturism with attentiveness and discretion, without pressure or judgment.

A safe and serene environment

Guarantee the tranquility and safety of vacationers by providing a peaceful environment conducive to rest, relaxation, and conviviality. Organize cultural, sporting, or festive activities open to all, respecting each person's pace.

Prohibit any inappropriate behavior, voyeurism, or exhibitionist behavior likely to harm the harmony of the site and the sensitivity of everyone, children and adults alike.

A concrete environmental commitment

Actively protect nature and the environment, both in naturist areas and in surrounding natural spaces.

Encourage eco-responsible actions: saving water and energy, sorting and reducing waste, and using eco-friendly products.

Promote fair and local tourism by supporting regional producers, artisans, and short supply chains.

A vibrant and shared practice

Promote the practice of naturism throughout the year, in collaboration with national and international clubs, associations, and federations. Inform vacationers about the values of naturism, its benefits, events, and locations, to extend the experience beyond the holiday.
